

# HSAJET-BSC

## Models available:

**BSC-MS860**  
**BSC-MS820**  
**BSC-MS911**  
**BSC-SV100**

- **Improve Quality**
- **Increase Productivity**
- **Avoid Unnecessary Costs (Detect the bad barcodes before your customer does)**

## Barcode Scanner Controller

The Bar Code Scanner Controller controls up to two bar code scanners/verifiers.

Provides key-switch “teach” functionality, reset, alarm light, buzzer and external device plug-in connector, so wiring is not necessary.

Provides 100% inspection of Barcodes.

With the SV-100 Scanner Verifier you can analyze linear barcodes and reject based on barcode quality. Set it for “C” grade or better. Will reject if barcode does not meet ANSI standards.

# HSAJET-BSC

## BARCODE SCANNER CONTROLLER

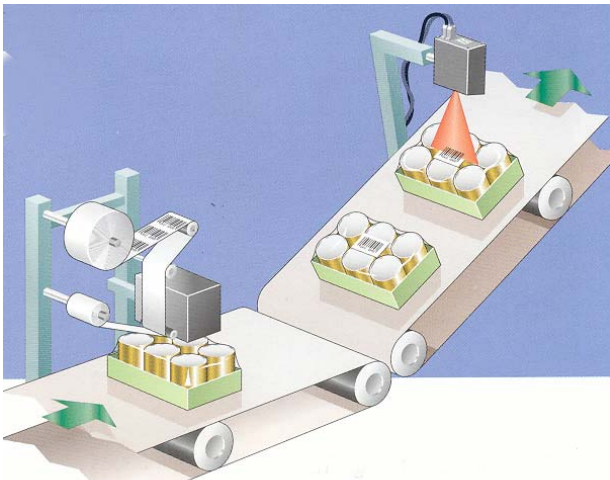

For control of one or two barcode scanner/verifiers

### Features

1. Alarm Light output
2. Operator Interface
3. Teach/On/Off keyed switch
4. Audible buzzer
5. Main Power Switch has EMI/RFI filtering and replaceable fuses
6. Connection for Scanner/Verifier #1
7. Serial connection
8. Trigger signal
9. Connection for Scanner/Verifier #2
10. Auxiliary output connections used when either a "Mismatch" or a "No-Read" condition occurs. Set scanner/readers to alarm with any number of consecutive bad reads
11. Reset to clear faults

UPC Code verification on products

Verification or scanning after ink jet or print & apply

### Controller

- Painted Steel Cabinet
- Voltage: 120 VAC, 4 amps, 60 Hz
- One Photocell port
- Controls 1 or 2 scanner/verifiers
- Alarm output connections (2 Amp rating)
- Interfaces with many different types of scanner/verifiers
