

# SUPERIOR S50-BB CASE SEALER

## BENEFITS

- The S50-BB Versatile Case Sealer is the best choice for most production environments. It is commonly used to meet the demands of sealing the carton sizes found in food and beverage and in many other industries.

The Superior S50-BB Versatile Case Sealer is designed to be the most efficient piece of equipment on your production floor. It is a very rugged system with top and bottom belts to securely and powerfully turn your case sealing into a quick, complete, inexpensive and almost effortless part of your production process. Additionally, when you order your S50-BB you have the opportunity to purchase a fully integrated inkjet coding system at a tremendous savings to make your case coding and sealing an incredibly efficient one step process.

The S50-BB comes complete, already loaded with everything you might want for options. Its front and rear roller packing tables make your production easy and simple—it is no problem for your operators to feed the system, or to transfer your sealed case to a collecting conveyor or a pallet. It is already supplied with swivel locking casters so you can roll it into place and lock it down for production with very little effort. Its self centering guide rails mean that you can change over very easily from one size box to another in a matter of a couple of minutes.
