

# SUPERIOR S70-SB CASE SEALER

## BENEFITS

- The S70-SB Large or Tall Carton Case Sealer is the best choice for securely sealing not only common case sizes, but also your large, tall or narrow cartons. It is commonly used to meet the special demands of sealing the larger carton sizes sometimes utilized in the food, beverage and electronics industries. The top and side belts insure that the S70-SB manages both heavy and very light cases smoothly without crushing or torsion.

The Superior S70-SB Large or Tall Carton Case Sealer is designed to be the most efficient piece of equipment on your production floor. It is a very powerful, rugged system with both side and bottom belts to securely and powerfully turn your tall, narrow or large case sealing into a quick, complete, inexpensive and almost effortless part of your production process. Additionally, when you order your S70-SB you have the opportunity to purchase a fully integrated inkjet coding system at a tremendous savings to make your case coding and sealing an incredibly efficient one step process.

The S70-SB comes complete, already loaded with everything you might want for options. Its front and rear roller packing tables make your production easy and simple—it is no problem for your operators to feed the system, or to transfer your sealed case to a collecting conveyor or a pallet. It is already supplied with swivel locking casters so you can roll it into place and lock it down for production with very little effort. Its self centering side belts mean that you can change over very easily from one size box to another in a matter of a couple of minutes.
