

MAMUTH RANDOM CASE SEALER

BENEFITS

- The MAMUTH Random Case Sealer is the best choice for production environments in which case size changes constantly. It is commonly used to meet the demands of sealing the continuously varying carton sizes utilized in distribution centers and by general merchandise co-packers who fulfill multiple orders that require constantly changing box sizes to be sealed uniformly, quickly and securely.

The MAMUTH Random Case Sealer is designed to be the most helpful piece of equipment on your production floor. There is no changeover required to re-configure your case sealer to accommodate constantly changing box sizes when you have the Random. It is a very rugged, heavy gauge system with top and bottom belts to securely and powerfully turn your case sealing into a quick, complete, inexpensive and almost effortless part of your production process.

The Random comes complete, already loaded with everything you might want for options. Its front and rear roller packing tables make your production easy and simple—it is no problem for your operators to feed the system, or to transfer your sealed case to a collecting conveyor or a pallet. It is already supplied with swivel locking casters so you can roll it into place and lock it down for production with very little effort. Its automatically self centering guide rails mean that the sealing of your constantly changing carton sizes is completely automated.
